### **Audio/Visual Needs**

- Maximus provides his PowerPoint slides at least 48 hours in advance. Please load them on the conference system and pre-check before his arrival.
- Maximus arrives 45–60 minutes before his session for an A/V check. Please ensure this can be scheduled before attendees enter the room.
- A wireless lavalier microphone is required for groups of 25 or more. A handheld wireless mic should be available as backup.
- A confidence monitor and a countdown clock are strongly preferred.
- The stage area should be clear of podiums and furniture within 6 feet of the front to maximize audience connection.
- Projection: one large screen off to the side or elevated—never blocking center stage. Maximus is the focal point; slides support his message.

## **Scheduling & Logistics**

- Please schedule a short break before Maximus's session to allow AV setup and create anticipation.
- A break immediately after Maximus's session is recommended to allow attendees time to connect, ask questions, and process takeaways.
- Travel: Maximus prefers to arrive the night before. Please arrange a non-smoking hotel room (on a higher floor, with late checkout if possible) near the venue.
- Airline Preference: Delta Airlines.

### **Slides & Materials**

- Maximus's slides are designed to complement—not duplicate—his verbal content. They should not be altered or converted to templates.
- The full slide deck is not available for distribution. If needed for certification, a brief session outline can be provided on-site.
- All materials remain the intellectual property of Maximus Lerois and cannot be reproduced, shared, or sold without prior written permission.

### **Recordings & Photos**

- Photos (non-flash) are welcome during the presentation. Flash photography should be limited to before or after the talk.
- Maximus and his team may also capture photos/video for promotional use.
- Recording the full presentation requires prior written agreement. Recordings cannot be resold, distributed, or published without consent.
